

When you enroll in Stanford Health Care Advantage, you will select a Stanford Health Care Advantage participating provider from our network. You'll also choose a PCP from a Stanford Health Care Advantage participating medical group. Stanford Health Care Advantage uses specific providers only. Not all participating medical groups and their affiliated primary care physicians (PCPs) and facilities are available to you in your service area for this plan. If there is a provider or facility that you want to use, check first to be sure that they are included within your Medical Group's network. Your access to network specialists and hospitals is based upon your Primary Care Physician and Medical Group selection.
